## MIKA

© martin grunsell

Mika is a real cutie! She's a greyhound girl aged 7 years with some appealing rough fur patches from her Wolfhound side. She is very friendly and laid back and easy to have around. She is good with older children although she might knock the little ones over when she is in play mode!

Mika is house trained and loves to be part of the family. She is great with larger dogs but not suitable to live with cats or small fluffies

Adoption fee \$300
